Note; this Starting Career Table includes several careers that are not on table 11-4: Norse Starting Careers on p. 147 of ToC. The reason for this is that, barring extenuating circumstances ('Freeholder' being a earned position, for example), any basic career that is available at all should, IMO, be available from the start.

* These careers are normally (according to table 11-4) not available as starting careers.

*About these area's so little is known that I did not feel I could even come up with a home made career list. For now; reroll these results.

** These area's do not have sourcebooks devoted to them yet, but there is sufficient coverage in other material that a very provisional career list could be made, though it might take a while before I get around to it.
